## EXPERIENCE

During my second year as an engineering student, I actively pursued opportunities to apply my academic knowledge in practical settings. I have enhanced my skills in Python and data visualization tools. Additionally, I contributed to a research project focused on one of the SDG Goals and have participate in numerous project expo's and hackathon's with my website. As an engaged member of the university's engineering club, I took part in organizing and participating in coding competitions, honing my problem-solving abilities. These experiences not only strengthened my technical competencies but also fostered my ability to work effectively in team environments. I am eager to leverage these experiences, along with my continuous learning mindset, in a dynamic role that aligns with my passion and skills.
